## Ability West and Core Teamwork: The Road to Success

**Core** International have recently rolled out Ireland's most successful payroll solution, **CorePay**, to Ability West's.

*Ability West was established in Galway City in 1963 and is dedicated to enabling people with intellectual disabilities realise their dreams and ambitions. The Galway County Association now comprises 49 branches throughout the county. Since 1974 the Association has established five Child Education and Development Centres throughout the county (Portumna, Tuam, Carraroe, Glenamaddy and Ballinasloe) which provide specialist education and training for pupils up to 18 years.*

A key factor for Ability West in opting for the **CorePay** solution was the applications ability to implement and integrate a highly flexible system, which will handle all the below key requirements.

- 1) **Speed and Simplicity of Implementation**
- 2) **Reduction in Administrative Burden**
- 3) **Delivery of an Efficient, Accurate application throughout all branches**
- 4) **Security and Reliability**
- 5) **Compliance with Irish Legislation**

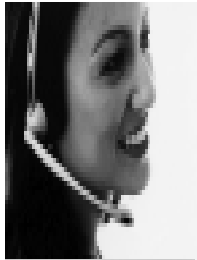

### 1) Speed and Simplicity of Implementation

One of the deciding factors in Ability West's decision to select **CorePay** was **Core's** proven track record in implementing solutions on time and on budget. Because of **Core's** extensive experience in the Healthcare Sector and industry specific edition of **CorePay**, **Core** were in a perfect position to quickly and simply implement a state of the art payroll solution for Ability West, thus streamlining and simplifying their entire payroll process.

### 2) Reduction in Administrative Burden

The nature of organisations such as Ability West means that they are subject to assorted work and pay patterns as a result of their variety of temporary, part time and permanent staff. **CorePay** singularly replaced the five separate payroll solutions previously in operation within Ability West. By providing a single application to handle all aspects of employee payroll, **Core** have greatly simplified Ability West's payroll process and have provided Ability West with the ability to input payroll data at branch level. The implementation of **CorePay will** greatly reduce administration costs and the burden placed on Ability West's Payroll Staff by manual entry of payroll data.

### 3) Delivery of an Efficient, Accurate Application throughout all Branches

Like so many regional and nationwide care and charity organisations, Ability West has multiple branches in operation across the county. A major advantage of the **Core** solution was **CorePay**'s ability to be quickly rolled out and utilised by the Associations 49 branches. Through the implementation of **CorePay**, Ability West will increase the accuracy of their data and the efficiency of their payroll process throughout all branches.

### 4) Security and Reliability

Security and reliability were key elements for Ability West in the implementation of a successful payroll solution. **CorePay** provided extensive security features both at database and application level and included full audit facilities thus maintaining data integrity at all times.

### 5) Compliance with Irish Legislation

The **CorePay** solution currently pays over 54% of the working population in Ireland and as such is Ireland's most reliable and trusted payroll solution. **CorePay** has been on the market for over 20 years and has evolved in line with technical, market and legislative changes. **Core** have a strategic relationship with the Revenue Commissioners (who are clients of **Core**) which ensures that **Core** are at the forefront of legislative changes as they affect Payroll.

**CorePay** will fully integrate with the **Core** modules **CoreTime** and **CorePersonnel** also chosen by Ability West to comprise their fully integrated human resource management solution, providing a solution that not only meets their present requirements but one that provides the ability to adapt to future organisational, technical and legislative changes.

This contract further strengthens **Core**'s position as the country's leading provider of integrated HR solutions to Ireland's Healthcare Sector.
