

Local Government Computer Services Board Select the fully Integrated CoreHR Solution

The Local Government Computer Services Board (LGCSB) has selected **Core International** to provide the Payroll, HR and Superannuation management software for the majority of County and City councils located throughout Ireland. After an extensive tendering process the LGCSB have selected the fully integrated **CoreHR** solution comprising of **CorePay**, **CorePersonnel**, **CoreTime**, **CorePension**, **Core e-Performance**, **Core e-Recruit**, **Core Employee Self Service** and **Core Business Intelligence** to cater for their extensive HR requirements. A key factor in this selection was Core's "State of the Art" Oracle "e" Deployment Technology.

The Local Government Computer Services Board (LGCSB) is a public sector organisation, closely aligned with Local Government in Ireland, specifically County and City councils. The LGCSB was established in 1975 and has developed a comprehensive range of services enabling their clients to select and adapt technology and software to suit their organisation's requirements.

Central to the LGCSB's selection of the **CoreHR** solution, was **Core's** proven track record in delivering similar, comprehensive, multi-site projects on time and on budget. Core have successfully implemented some of Ireland's largest HR and Payroll projects including replacing the legacy payroll in each and every Irish Government Department and implementing HR and Payroll in all of Ireland's 15 Institutes of Technology.

In light of recent high profile failures regarding software solutions in the public sector, the LGCSB chose to engage Ireland's most trusted provider of Payroll and HR software to deliver this comprehensive project. Implementation will take place on a phased basis, with pilot sites initially planned for Kerry, Meath and Donegal County Councils.

Core will provide the County and City Councils with a complete end-to-end solution to their HR needs, catering for every aspect of the employee life cycle, from initial recruitment through to eventual retirement. The County and City Councils will benefit greatly from **Core's** extensive support structure, on and off site training facilities and tried and tested user group set up.

Map Displaying Counties of Ireland

This is one of Ireland's largest HR and Payroll contracts ever to be awarded in the history of the state and displays **Core's** position as Ireland's leading provider of integrated software solutions.
